VIRTUAL OPEN CITY

#EnterTheNewNormal

Virtual Open City is an adaptation of our monthly open houses to keep the conversation flowing on the future of living, food, work and manufacturing.

We hear your call for support and participation around the urgent need to prepare for the new normal.

Opening the session, Mistletoe's founder Taizo Son will share ideas for new OS possibilities - sparking the series of panel discussions, breakout sessions and experimental social activities which will follow after.

We can't wait for you to meet other like-minded individuals, including the Mistletoe community and other social impact activists who share our vision too.

PANEL DISCUSSIONS

Back-to-back panel discussions to get your brain juices flowing.

The New Norm, The New OS

Taizo Son
Atsushi Taira
Poh Cailing

Mistletoe founder Taizo Son, ecosystem builder Atsushi Taira, and JTC leader Poh Cailing get together to talk about what the future holds in this new normal.

Alternative Universal Design of A City

Shurui Leo
Tan Yang En
Nihal Tamang
Rithika Thomas

Project leaders of Audacity seed projects discuss the alternative design of future cities, looking into the basic building blocks for a new norm, and the symbiosis between various resource systems and urban living.

Gen Z: Opportunities in the Age of Crises

Jeremy Sim
Yee Shuen Hwee
Bradley Busetto
Alexis Liu
Ng Chia Wee

In an era of pandemics, rising oceans and other ecological disasters, Gen Zs can turn unprecedented crises into extraordinary opportunities. This is a meeting of minds between Gen Zs and top impact investors.

BREAKOUT SESSIONS

Four discussions to hop around!

1 / 4

Building Resilient Food Systems

Tan Yang En
Jayden Ong
Nithiya Laila

An open discussion about our food system – its vulnerabilities and challenges, creating autonomy with decentralised food production, combating climate challenges with enhanced biodiversity and food circularity.

2 / 4

Manufacturing a Conscious Future

Rithika Thomas
Krithika
Wouter van Hest
Shane Kelly
Nihal Tamang
Yee Shuen Hwee

What is conscious manufacturing to you? Production cycles, decentralisation, minimisation of carbon footprint? What links can we make in the current challenges of manufacturing to find a holistic approach that contributes to a sustainable future of manufacturing?

3 / 4

Remote Work & Robotics in Dangerous Times

Chng Zhe Ming
Alan She
Jeremy Webb

From pandemics to deepsea exploration and interplanetary construction, the applications in remote work & robotics are zooming. Gen Z hacker Zhe Ming hosts Harvard physicist Dr Alan She and off-world roboticist Jeremy Webb.

Wellbeing Takes On a New Normal

Janice Yeo
Edric Subur

A crisis threatening the very existence of our kind has revealed the cracks in an unsustainable extractive value system of late stage capitalism. Especially in developed cities, the technologies that have brought immense benefits to human kind, have also taxed our thinking, wellness, and relationships. There is an urgent mindshift needed from doing to be-ing.

CHILL ZONE

Glocal Foods with Chef Erna

Join Chef Erna as she shows you ways you can utilise the humble potato in a variety of dishes.

Did you know?

Chef Erna cooks at SLICE, our farm-to-fork Robocafe testbedding visually impaired (VI) technologies.

Although she is a VI chef, she has turned her handicap into a superpower! Chef Erna is constantly experimenting with recipes using alternative proteins and healthy substitutes.

Wind down your way.
Visit one or maybe both?

Wim Hof Method with Chun

The Wim Hof Method unlocks a multitude of benefits from better sleep to increased willpower.

Chun, the only certified Wim Hof instructor in Singapore, will be bringing us through a breathing technique that unlocks the hidden potential of our breath.

NOTE: Pregnant women and those who suffer from epilepsy are not advised to participate.

Wim Hof should never be practiced while driving, in the water, and should only be done while seated or laying down.
